NEWSPAPERARCHIVE®

The majority of well-read physicians now believe that Consumption is a germ disease. In other words, instead of being in the constitution itself it is caused by innumerable small creatures living in the lungs having no business there and eating them away as caterpillars do the leaves of trees.

A Germ Disease.

The phlegm that is coughed up is those parts of the lungs which have been gnawed off and destroyed. These

little bacilli, as the germs are called. are too small to be seen with the naked eye, but they are very much alive just the same, and enter the body in our food, in the air we breathe, and through the pores of two Misses Pierson, put their patience the skin. Thence they get into the sorely to the test. When Miss Clews' blood and finally arrive at the lungs | head appears, the guards take out their where they fasten and increase with loars as a matter of course and head for frightful rapidity. Then German the open sea. When the bathing begins, Syrup comes in, loosens them, kills if a stranger makes his appearance on them, expells them, heals the places the beach, men and matrons follow him they leave, and so nourish and with such sad, reproachful glances that soothe that, in a short time consumpwes become germ-proof and well.

Bathing on the Beach at Newport. The creme de la creme are at Newport.
The nobility have established a new bathing place called Bailey's beach, at the end of Bellevue avenue, in the heart of the millionaires' quarter. It is only about 300 yards in length, but that small space the cottagers think they can hold against the assaults of the common herd. No buses or horse cars are allowed to land passengers there during the morning hours. A bathing house has been built, with a granite portice. In this are little retreats 9 feet by 12, each of which bears the initials of the gentleman who owns it. A stranger could no more buy or hire one of these bathing houses than The creme de la creme are at Newport.
